Degree programme
Faculty of Engineering and
Computer Science

Software Design International

Bachelor of Science

Are you ready for a challenge?

Do you want to work with Software and create applications?

Take a moment to read the following because this might be the right choice for you! This degree programme offers a wide range of expertise from design to implementation. You gain practical experience in a company and work on real-world projects. You develop problem-solving skills as a software engineer and develop the professionalism needed to become a skilled worker working both independently and as part of a team. A choice to specialise is available in either Digital Transformation or Data Science.

Embark on a journey with us to gain cutting-edge technical prowess and prepare for the world of work. The Aschaffenburg University of Applied Sciences prides itself on its individualised approach that supports student engagement with passionate educators, researchers, and like-minded peers, fostering an environment of vibrant exchange. Elevate your educational experience with us today and find out more: **www.th-ab.de/sdi**
