

Daoist Thought and Qi Gong: Practical exercises and philosophy for personal resilience and business strategy

Course number:	new
Hours per week:	2
ECTS:	2-5 (depending on individual requirements with extra assignments)
Scheduled:	Winter and summer semester
Format:	Practical workshop, seminar and experiential learning
Examination:	Oral exam (for 2 ECTS) plus written report (for 5 ECTS)
Lecturer:	Prof. Dr. Oliver A. Hugo
Objectives:	<p>How did ancient Chinese philosophers like Sun Tzu ("The Art of War"), Confucius and Lao Tzu ("Tao Te Ching") think about strategy? How can their views help us even today to develop business plans and strengthen personal resilience? And how might these timeless ideas be physically experienced through the practice of Qi Gong as a form of "embodied cognition"? In this course, we will contrast ideas about strategy from Western and Eastern traditions, focusing, in particular, on Daoist thought. As an intellectual framework the latter is unique in that it can, to an extent, be physically experienced through Qi Gong exercises as a type of "embodied cognition." By learning these exercises and reflecting upon the process, conclusions can be drawn about strategy, resilience and success in business and personal life. As essential sources of Chinese culture, Daoist and Confucian thought also offer opportunities for building our cross-cultural understanding.</p>
Contents:	<p>Knowledge:</p> <ul style="list-style-type: none"> ▪ Key strategy concepts from Western scholarship ▪ Basics of Daoist and Qi Gong history and philosophy ▪ Strategic concepts from Daoism, Sun Tzu and Confucius ▪ Overview of current scientific work in the field of Qi Gong ▪ The concept of embodied cognition <p>Skills:</p> <ul style="list-style-type: none"> ▪ Ability to apply ideas based on Eastern philosophy to improve personal resilience and business strategy ▪ Ability to perform a sequence of 8-12 physical Qi Gong exercises <p>Competence:</p> <ul style="list-style-type: none"> ▪ Through analysis, students can determine how and when the application of e.g. Daoist thinking and practice is beneficial ▪ Students have developed a better sense of and improved their cognitive and physical ability to learn exercise sequences

	<ul style="list-style-type: none"> ▪ Ability to reflect on the personal learning process, obstacles and possible solutions <p>Note: A significant part of the course will be dedicated to learning and discussing the physical exercises.</p>
Pre-requisites	Normal physical mobility and mental stability, otherwise no special fitness required. Interest in Chinese culture and Daoist thought. Participation during pregnancy is not possible.
