

Together towards a successful future

TH Aschaffenburg
university of applied sciences

UAS Aschaffenburg is a modern university that offers a family-like atmosphere and a campus in an attractive green setting where everything is within easy reach – a feel-good place where people enjoy spending time before and after lectures, too.

UAS Aschaffenburg University of Applied Sciences

Excellent teaching and access to a large network in industry and business: practically oriented degree programmes in the fields of science, engineering, business and law are our strength. You study in small groups, enabling easy contact with professors. With modern lecture halls and laboratories equipped to high standards, you can be sure of an efficient and focused learning atmosphere.

And that is not all: the campus offers full-coverage wireless internet and has a large lawn area that is great for hanging out in the summer.

The future is built on practice

As a research-intensive university, we offer you a wide range of opportunities to work on exciting scientific projects. By cooperating with companies closely, we ensure a consistently high level of practical relevance in research, teaching and transfer.

Campus and buildings

Our university is set in impressive grounds. In addition to new facilities, we have tastefully renovated historic buildings that are equipped with state-of-the-art technology – and everything is within walking distance. Fancy a game of volleyball or a picnic on the centrally located campus lawn? The university's family-like atmosphere will definitely make you want to spend time on the grounds. Another bonus is that we are close to the town centre. So we are able to offer you the ideal place for a successful study programme.

Take a tour of the campus

We offer two modern halls of residence with a capacity of approximately 270. So if you move to Aschaffenburg to pursue your studies, you have a choice of a comfortable apartment or a single room in a shared flat with a small kitchen, shower and toilet. The halls of residence are located on Bessenbacher Weg and Schoberstrasse – just a stone's throw from the campus. They are run by Studentenwerk (Student Union) Würzburg and the rental rates are affordable.

Library

Our modern university library provides information on all degree programmes and offers a wide range of literature and specialised international publications – both in print and online.

Canteen and cafeteria

Our canteen with cafeteria is located in the middle of the green campus, directly by the campus lawn. So there is no rush after lectures: everything is within easy reach. Three different main courses are available each day, with a range of side dishes and desserts too, of course. Are you a vegetarian? No problem at all: we always have a vegetarian option. The canteen and cafeteria have a capacity of 200. Even if you do not feel like a full meal, this is the perfect place to come: coffee, snacks and a breakfast selection are available here as well. An outdoor seating area can be accessed in fine weather.

Developing skills and expertise is a matter of team work.

Why it is a good decision to study at UAS Aschaffenburg:

Year of foundation
1995

Professors and lecturers
118

Degree programmes
32

Institutes
8

More than
314
employees

Facts and figures

Acquired research funds
5.6 Mio
Euros in 2022

1

Our professors are passionate about their subjects and provide you with individual supervision.

2

Our degree programmes regularly achieve top positions in the CHE ranking published by ZEIT.

3

We cooperate closely with international universities and promote international exchange.

4

Fascinating specialisation options and a wide range of electives allow you to study according to your own preferences and strengths.

5

We offer a particularly intense learning experience in small groups.

6

It is no coincidence that Aschaffenburg is known as the Nice of Bavaria. The town will inspire you with its Mediterranean atmosphere.

Apply for
your studies
at the UAS AB from
2nd May
